CONTENTS OF 90B

Vol. 90B, No. 1.

Mini-Reviews

Enrico Bignetti, Pierangelo Cattaneo, Andrea Cavaggioni, Gelsomina Damiani and Roberto Tirindelli 1 The pyrazine-binding protein and olfaction

Cornelius Hammer and Erich Braum 7 Quantification of age pigments (lipofuscin)

Edward F. Skorkowski 19 Mitochondrial malic enzyme from crustacean and fish muscle

General Papers

Martin P. Veares, L. John Goad and John W. ApSimon 25 Thornasterol A sulphate, a constituent of the starfish *Asterias rubens*

Jean-Jacques Lenoir-Rousseaux, Martine Arpagaus and Jean-Pierre Toutant 29 Separation and characterization of hydrophilic and detergent-interacting components of brain acetylcholinesterase from *Tenebrio molitor* L. (Insecta, Coleoptera)

Yukinobu Kato, Hitoo Iwase and Kyoko Hotta 37 Comparative study of chicken ovalbumin subfractions having different carbohydrate chain from each other by high performance anion exchange chromatography

Alessandra Pagliarani, Vittoria Ventrella, Fabiana Trombetti, Gianni Trigari and Anna Rosa Borgatti 41 $(Na^+ + K^+)$- and Na^+-stimulated Mg^{2+}-dependent ATPase activities in kidney of sea bass (*Dicentrarchus labrax* L.)

Ramón Gomez, Inmaculada Manzano, Alberto M. Garate, Pedro G. Barbon, Jose Maria Macarulla and José Carlos G. Milicua 53 A purple carotenoprotein from the carapace of *Galathea strigosa*

R. A. Andersen and Hanne Line Daae 59 Preparation of metallothionein from rat liver and studies of its properties with respect to use as a standard in gel permeation chromatography, polyacrylamide gel systems, autoradiography and Western blotting

Ikuo Yasumasu, Akiya Hino, Akiko Fujiwara, Eigoro Tazawa, Shin-ichi Nemoto and Kouichi Asami 69 Fertilization-induced change in the respiratory rate in eggs of several marine invertebrates

Nelson Carvajal and Eduardo Kessi 77 Properties of octopine dehydrogenase from the foot muscle of *Concholepas concholepas*

John S. Baumstark 81 The elastase inhibitors of swine serum: isolation and partial characterization of the β_1-globulin inhibitor and its interaction with elastase

Annikka Linnala-Kankkunen, Jorma Palvimo and Pekka H. Mäenpää 91 Phosphorylation of acid-soluble chromatin proteins from tissues of different species by purified cyclic GMP-dependent protein kinase

W. W. Crozier 95 Comparative electrophoretic examination of the two European species of angler-fish (Lophiidae): *Lophius piscatorius* (L.) and *Lophius budegassa* (Spinola) and assessment of their genetic relationship

S. Hollingworth and M. A. Pass 99 The metabolism and excretion of oestradiol-3β-D-glucuronide in rats

Masashi Ryuzaki	103	Characterization of the constituent fatty acids in phosphatidylinositol during early development in *Rana nigromaculata*
Göran E. Nilsson	109	Organ distribution of aldehyde dehydrogenase activity in the rainbow trout (*Salmo gairdneri* Richardson)
Graziano Guella, Ines Mancini and Francesco Pietra	113	Isolation of ergosta-4,24(28)-dien-3-one from both Astrophorida demosponges and subantarctic hexactinellides
Yehia A. I. Abdel-Aal, Terry N. Hanzlik, Bruce D. Hammock, Lawrence G. Harshman and Glenn Prestwich	117	Juvenile hormone esterases in two heliothines: kinetic, biochemical and immunogenic characterization
Koh-ichi Nagata, Seiji Nagao, Tatsuo Ishizuka and Yoshinori Nozawa	125	Evidence for the presence of cytosolic inhibitors for phospholipid/Ca^{2+}-dependent protein kinase in mastocytoma cell
Masaaki Katsuyama and Takao Matsuno	131	Carotenoid and vitamin A, and metabolism of carotenoids, β-carotene, canthaxanthin, astaxanthin, zeaxanthin, lutein and tunaxanthin in tilapia *Tilapia nilotica*
D. Barnett, P. W. Dean, R. J. Hart, J. S. Lucas, R. Salathe and M. E. H. Howden	141	Determination of contents of steroidal saponins in starfish tissues and study of their biosynthesis
K. Roehrig, K. E. Nestor Jr and D. L. Palmquist	147	ATP citrate lyase activity in liver and adipose tissue of veal or ruminating calves (*Bos taurus*)
M. Satake, A. Mikajiri, M. Makuta, T. Fujita, M. Murakami, K. Yamaguchi and S. Konosu	151	Occurrence and distribution of D-cysteinolic acid in fish and shellfish
Kenji Sato, Reiji Yoshinaka, Mamoru Sato, Yoshiaki Itoh and Yutaka Shimizu	155	Isolation of types I and V collagens from carp muscle
Antonín Stratil and Petr Bobák	159	Comparison of biochemical polymorphisms in mouflon and sheep: isoelectric differences in haemoglobins and quantitative variation of mouflon haemopexin
G. E. Thompson	163	Mammary secretion of triglycerides in the cow *pre-partum*
Salam W. Masri, Muslim Ali and Clark J. Gubler	167	Isolation of transketolase from rabbit liver and comparison of some of its kinetic properties with transketolase from other sources
Hanna Jańska, Aleksandra Kubicz, Agata Szalewicz and Joanna Haraźna	173	The high molecular weight and the low molecular weight acid phosphatases of the frog liver and their phosphotyrosine activity
Soraya Svoronos and Soma Kumar	179	Decarboxylation of malonyl-CoA by lactating bovine mammary fatty acid synthase
Nobumichi Tsushima and Masahiro Yamada	187	Comparison of sex hormone dependent induction of δ-aminolevulinic acid dehydratase in chick liver and oviduct
M. Ogata, I. Nakasono, M. Iwasaki, S. Kubo and H. Suyama	193	Comparative immunological and electrophoretic analysis of Gc protein in sera from various animals
L. A. H. Zeef and C. Dennison	201	A novel cathepsin from the mussel (*Perna perna*) (Linne)
Yutaka Karasawa, Hiromi Kawai and Akiyoshi Hosono	205	Ammonia production from amino acids and urea in the caecal contents of the chicken
Saâdia Oufara, Hervé Barré, Jean-Louis Rouanet and Yves Minaire	209	Great adaptability of brown adipose tissue mitochondria to extreme ambient temperatures in control and cold-acclimated gerbils as compared with mice

G. Trausch, M.-Cl. Forget, P. Devos and A. Bauchau 215 Phosphorylation of lobster hepatopancreas subcellular fractions by endogenous protein kinases

Richard J. Middleton and Grahame Bulfield 221 Steroid regulation of kidney histidine decarboxylase and ornithine decarboxylase levels in mouse kidney: effects of the mutation testicular feminization, *Tfm*

M. Covens, D. Stynen, F. Ollevier and A. De Loof 227 Concanavalin A reactivity of vitellogenin and yolk proteins of the threespined stickleback *Gasterosteus aculeatus* (Teleostei)

Omar Jorge Rimoldi, María Susana González, Raúl O. Peluffo and Rodolfo R. Brenner 235 Lipid metabolism in fat body of the hematophagous insect: *Triatoma infestans*

Virginia A. M. Abrams, Timothy J. McGahan, Jeffrey S. Rohrer, Andrew S. Bero and Harold B. White, III 243 Riboflavin-binding protein from reptiles: a comparison with avian riboflavin-binding proteins

Vol. 90B, No. 2.

Mini-Review

Ognen A. C. Petroff 249 Biological ^{1}H NMR spectroscopy

General Papers

Julian G. Mercer, Ann E. Munn and Huw H. Rees 261 *Caenorhabditis elegans*: occurrence and metabolism of ecdysteroids in adults and dauer larvae

Yasunaga Kameyama, Koji Yashiro, Masako Mizuno, Akihiko Okada, Kenichiro Takahashi, Shigeo Hayashi and Yutaka Yokota 269 Comparison of phospholipid synthesis in rat salivary glands: properties of 1-acylglycerophosphorylcholine and 1-acylglycerophosphate acyltransferase systems in microsomes

J. A. Levy, M. Haimovici and M. Conceicão 275 Genetic evidences for two species to the genus *Eledone* (Cephalopoda: Octopodidae) in South Brazil

C. F. Phleger 279 Bone lipids of Jamaican reef fishes

Celestina Ottolenghi, A. Cristina Puviani, Andrea Baruffaldi, M. Emilia Gavioli and Luigi Brighenti 285 Glucagon control of glycogenolysis in catfish tissues

Danuta M. Rzymkiewicz and Maria J. Piechowska 291 Studies on the nature of tyrosine aminotransferase activity from mitochondria of *Drosophila melanogaster* larvae

Dorine W. Swinkels and Pierre N. M. Demacker 297 Comparative studies on the low density lipoprotein subfractions from pig and man

James J. Lightbody, Aziz N. Quabar, Mark G. Mainwaring, James S. Young, Daniel A. Walz, Serge N. Vinogradov and Toshio Gotoh 301 Immunological relatedness of annelid extracellular hemoglobins and chlorocruorins

F. Mata, P. Garcia-Barreno and A. M. Municio 307 Lipid composition of miniature pig platelets

R. W. Rosebrough, J. P. McMurtry, A. D. Mitchell and N. C. Steele 311 Chicken hepatic metabolism *in vitro*. Protein and energy relations in the broiler chicken—VI. Effect of dietary protein and energy restrictions on *in vitro* carbohydrate and lipid metabolism and metabolic hormone profiles

Ricardo J. Pollero and Oscar O. Iribarne 317 Biochemical changes during the reproductive cycle of the small Patagonian octopus, *Octopus tehuelchus*, d'Orb

R. H. Fetterer and J. F. Urban, Jr 321 Developmental changes in cuticular proteins of *Ascaris suum*

Jan K. Teller 329 Kinetic properties of glutamate dehydrogenase purified from the mealworm fat body. The glutamate synthesizing direction

C. Stanley Tsai, Douglas M. Templeton, James R. P. Godin, Karen P. Farrell and A. Jashua Wand	335	Comparative studies of glutathione reductase and lipoamide dehydrogenase
Teresa Proverbio, Reinaldo Marín and Fulgencio Proverbio	341	Ouabain-insensitive, Na^+-stimulated ATPase activity in squid gill microsomes
Y. Ochiai, S. Watabe and K. Hashimoto	347	Physicochemical and immunological properties of myosin light chains from the ordinary muscle of marine teleost fishes
Y. Ochiai, Y. Kariya and K. Hashimoto	355	Biochemical and structural heterogeneity of fast and slow muscles of the blue crab *Portunus trituberculatus*
Mary L. Swift, Thomas P. Thomas and Cheryl L. Humphrey	361	Characteristics of glycogen synthase activity in the oyster, *Crassostrea virginica* Gmelin
Michael Messer, Eva A. Crisp and Keith Newgrain	367	Studies on the carbohydrate content of milk of the crabeater seal (*Lobodon carcinophagus*)
Eva A. Crisp, Michael Messer and Peter D. Shaughnessy	371	Intestinal lactase and other disaccharidase activities of a suckling crabeater seal (*Lobodon carcinophagus*)
E. Don Stevens and J. M. McLeese	375	Kinetics of trypsin from rainbow trout are not influenced by level of feeding
J. Clark, K. A. Quayle, N. L. Macdonald and J. R. Stark	379	Metabolism in marine flatfish—V. Chitinolytic activities in Dover sole, *Solea solea* (L.)
Nelson Carvajal, Eduardo Kessi, Juan Bidart and Andrés Rojas	385	Properties of arginase from the foot muscle of *Chiton latus*
Paul F. Basch	389	*Schistosoma mansoni*: nucleic acid synthesis in immature females from single-sex infections, paired *in vitro* with intact males and male segments
A. Keyvanfar, D. Rochu and J. M. Fine	393	Comparative study of sturgeon oocyte soluble proteins by isoelectric focusing
Sebastiano Sciuto, Rosa Chillemi, Angela Patti, Giovanni Sichel and Marina Scalia	397	Melanosomes from liver and skin of *Rana esculenta* L. A comparative chemical study
Ole Sand	401	The effect of fructose 1,6 diphosphate on pyruvate kinase from the liver of the flounder (*Platichthys flesus* L.)
Antonín Stratil, Bo Gahne, R. Kumar Juneja, Stellan Hjertén and Geneviève Spik	409	Pig plasma protease inhibitor gene complex: isolation and partial characterization of three inhibitors
Petrus Tang and Hsin-sheng Lo	419	*Pentatrichomonas hominis*: purine salvage pathway
James J. Grasela, William W. M. Steiner and N. L. Marston	427	Genetic differences at two allozyme loci in midwest populations of three species of Nabidae
Clélia Ferreira, Elói S. Garcia and Walter R. Terra	433	Properties of midgut hydrolases from nymphs and adults of the hematophagous bug *Rhodnius prolixus*
Ming L. Chen and Mark L. Failla	439	Metallothionein metabolism in the liver and kidney of the streptozotocin-diabetic rat
Fritz Trillmich, Dorothea Kirchmeier, Otto Kirchmeier, Ingolf Krause, Erika Lechner, Heimo Scherz, Hans Eichinger and Markus Seewald	447	Characterization of proteins and fatty acid composition in Galapagos fur seal milk. Occurrence of whey and casein protein polymorphisms
Carme Espinet, Ramon Bartrons and José Carreras	453	Effects of fructose 2,6-bisphosphate and glucose 1,6-bisphosphate on phosphofructokinase from chicken erythrocytes

Vol. 90B, No. 3.

Special issue: Marine Biology of Antarctic Organisms.

Proceedings of the International Conference on the Marine Biology of Antarctica, Ravello, Italy

Introduction

Guido di Prisco, Bruno Maresca and Bruno Tota 459 Marine biology of Antarctic organisms: Proceedings of the International Conference on the Marine Biology of the Antarctic

Section I: The Antarctic marine ecosystem

Andrew Clarke 461 Seasonality in the Antarctic marine environment

Bodo von Bodungen, Eva-Maria Nöthig and Quingbo Sui 475 New production of phytoplankton and sedimentation during summer 1985 in the south eastern Weddell Sea

Sayed Z. El-Sayed 489 Productivity of the Southern Ocean: a closer look

Section II: Biology of *Euphausia superba*

Robin M. Ross and Langdon B. Quetin 499 *Euphausia superba*: a critical review of estimates of annual production

Svein Erik Fevolden 507 Biochemical genetics and population structure of *Euphausia superba*

Section III: Physiology of cold adaptation

P. W. Hochachka 515 Channels and pumps—determinants of metabolic cold adaptation strategies

J. J. Torres and G. N. Somero 521 Vertical distribution and metabolism in Antarctic mesopelagic fishes

Joseph T. Eastman 529 Lipid storage systems and the biology of two neutrally buoyant Antarctic notothenioid fishes

J. F. Dunn 539 Muscle metabolism in Antarctic fish

Ian A. Johnston and John D. Altringham 547 Muscle contraction in polar fishes: experiments with demembranated muscle fibres

G. Hamoir 557 Biochemical adaptation of the muscles of the Channichthyidae to their lack in hemoglobin and myoglobin

B. Tota, F. Farina and G. Zummo 561 Ultrastructural aspects of functional interest in the ventricular myocardial wall of the Antarctic icefish *Chaenocephalus aceratus*

J. A. Macdonald, J. C. Montgomery and R. M. G. Wells 567 The physiology of McMurdo Sound fishes: current New Zealand research

Section IV: Biochemistry and molecular biology of cold adaptation

Rossana D'Avino and Guido di Prisco 579 Antarctic fish hemoglobin: an outline of the molecular structure and oxygen binding properties—I. Molecular structure

Guido di Prisco, Bruno Giardina, Rossana D'Avino, Saverio G. Condò, Andrea Bellelli and Maurizio Brunori 585 Antarctic fish hemoglobin: an outline of the molecular structure and oxygen binding properties—II. Oxygen binding properties

H. William Detrich III and Susan A. Overton 593 Antarctic fish tubulins: heterogeneity, structure, amino acid compositions and charge

S. Genicot, G. Feller and Ch. Gerday 601 Trypsin from Antarctic fish (*Paranotothenia magellanica* Forster) as compared with trout (*Salmo gairdneri*) trypsin

Arthur L. DeVries 611 The role of antifreeze glycopeptides and peptides in the freezing avoidance of Antarctic fishes

B. Maresca, E. Patriarca, C. Goldenberg and M. Sacco 623 Heat shock and cold adaptation in Antarctic fishes: a molecular approach

Guido di Prisco 631 A study of hemoglobin in Antarctic fishes: purification and characterization of hemoglobins from four species

Vol. 90B, No. 4.

Reviews

Ronald G. Smith 639 Inorganic carbon transport in biological systems

Melvyn Little and Thomas Seehaus 655 Comparative analysis of tubulin sequences

Mini-Reviews

Ana María Jabalquinto, Marysol Alvear and Emilio Cardemil 671 Physiological aspects and mechanism of action of mevalonate 5-diphosphate decarboxylase

Mark A. Sheridan 679 Lipid dynamics in fish: aspects of absorption, transportation, deposition and mobilization

David A. Hart and Alnawaz Rehemtulla 691 Plasminogen activators and their inhibitors: regulators of extracellular proteolysis and cell function

General Papers

Ivan Yu Sakharov, Irene E. Makarova and Gennadiy A. Ermolin 709 Purification and characterization of intestinal alkaline phosphatase from harp seal

J. R. Gold and W. J. Karel 715 DNA base composition and nucleotide distribution among fifteen species of teleostean fishes

B. L. Middlebrooks, Nancy J. Brown-Peterson, Paul M. Toom and Willard L. Douglas 721 Evaluation of specific binding affinity and biochemical properties of fish eye-lens reagents from seven teleost species

Margaret L. Fonda 731 Pyridoxamine (pyridoxine) phosphate oxidase activity in mammalian tissues

Miquel Carreras, José Carreras and Fernando Climent 739 Metabolism of glucose 1,6-P_2—III. Partial purification and characterization of glucose 1,6-P_2 synthase from pig skeletal muscle

Nget-Hong Tan and Chon-Seng Tan 745 A comparative study of cobra (*Naja*) venom enzymes

A. Van de Weghe, W. Coppieters, G. Bauw, J. Vandekerckhove and Y. Bouquet 751 The homology between the serum proteins Po2 in pig, Xk in horse and α_1B-glycoprotein in human

Desmond R. Jimenez and Martha Gilliam 757 Cytochemistry of peroxisomal enzymes in microbodies of the midgut of the honey bee, *Apis mellifera*

F. Soler, M. J. Alejandre, M. Garcia-Gonzalez, J. L. Segovia-Parra, F. Fernandez-Belda and J. C. Gomez-Fernandez 767 Influence of dietary lipids on microsomal membranes from chick breast muscle

Etsuo Okuno, Takaya Ishikawa, Jun Kawai and Ryo Kido 773 Alanine:glyoxylate aminotransferase activities in liver of *Suncus murinus* (insectivora)

Sumiko Ohshima, Tohru Komiya, Kosei Takeuchi, Takeshi Endo and Takashi Obinata 779 Generation of multiple troponin T isoforms is a common feature of the muscles in various chordate animals

George Perry and Charles Lambert 785 Arachidonic acid metabolism in *Ascidia ceratodes* eggs: role of lipid peroxidation

Albert C. Smith 791 Indirect tissue electrophoresis: a new method for analyzing solid tissue protein

Kunihiko Konno, Motoi Matsuura, Morito Fujita, Yoshie Miyagishima and Ken-ichi Arai	795	Inhibitory effect of squid (*Todarodes pacificus*) paramyosin on actomyosin ATPase and on superprecipitation
Motoi Matsuura, Kunihiko Konno and Ken-ichi Arai	803	Thick filaments of fish myosin and its actin-activated Mg-ATPase activity
Keith Nelson, Bruce Heyer, Eric Johnson, Dennis Hedgecock and Ernest S. Chang	809	Photoperiod-induced changes in hemolymph vitellogenins in female lobsters (*Homarus americanus*)
D. Bruce Thompson and William L. Daniel	823	Comparative biochemistry of mammalian arylsulfatases A and B
Adrian P. Ward and Nazar Z. Al-Abidin	833	Multiple molecular forms of *Acanthamoeba* lactic dehydrogenase
Paul C. Adams, Ulrich Mack, Lawrie W. Powell and June W. Halliday	837	Isolation of a porcine hepatic ferritin receptor
M. J. O'Donnell and A. Mandelzys	843	Cell volume maintenance and volume regulatory decrease in malpighian tubule cells of an insect, *Rhodnius prolixus*
F. A. Fahim, E. W. Mohareb, N. S. Mansour and A. M. Nour	851	Effect of immature *Schistosoma mansoni* worms on hamsters' plasma enzymes
Minoru Osanai and Yumiko Yonezawa	855	Metabolism of ϵ-*N*-trimethyllysine in the silkworm, *Bombyx mori*. Free ϵ-*N*-trimethyllysine as reserve of carnitine
Bai-Xiang Zou, John G. Stoffolano, Jr, John H. Nordin and Chih-Ming Yin	861	Subunit composition of vitellin, and concentration profiles of vitellogenin, and vitellin in *Phormia regina* (Meig.) following a protein meal
Theodore T. Herskovits, Perth A. Blake and Mary G. Hamilton	869	Subunit dissociation and denaturation of *Fasciolaria tulipa* hemocyanin
G. E. Napolitano, W. M. N. Ratnayake and R. G. Ackman	875	Fatty acid components of larval *Ostrea edulis* (L.): importance of triacylglycerols as a fatty acid reserve
Satish Asotra, Philip V. Mladenov and Robert D. Burke	885	Polyamines and cell proliferation in the sea star *Pycnopodia helianthoides*
K. Jürss, R. Bastrop and Th. Vökler	891	Effects of salinity on vitamin B_6 deficiency in rainbow trout (*Salmo gairdneri* Richardson)
Toshiki Enomoto, Kazutaka Miyatake and Shozaburo Kitaoka	897	Purification and immunological properties of fructose 2,6-bisphosphate-sensitive pyrophosphate: D-fructose 6-phosphate 1-phosphotransferase from the protist *Euglena gracilis*
